PROFESSIONAL DEVELOPMENT PACKAGES

Get on the front foot!

Maximise your training budget with IPWEAQ's discounted Professional Development Packages at just \$100 per CPD hour.

Online programs available for technical and soft skills for Emerging Professionals to High Potential Professionals.

50 hours -
\$5,000

100 hours -
\$10,000

While many organisations are no longer able to offer face-to-face learning and development opportunities for their teams in the current environment, training budgets can still be applied to IPWEAQ's Professional Development Packages.

These packages can be utilised for online programs for all team members including the various learning pathways in the IPWEAQ Learning Hub.

Conference Proceedings are also available under the PD Packages which includes videos, PowerPoint Presentations and papers of all presentations across all 12 streams delivered at the 2019 Annual Conference. Conference Proceedings also includes all keynote presentations, panel sessions and other conference features.

RPEQs who have signed up to IPWEAQ's official CPD Scheme can also access the required 50 CPD hours for the year via these packages. Via the IPWEAQ CPD Scheme, RPEQs are automatically audited.

The Learning Hub is a digital learning platform designed for public works engineering professionals to develop their non-technical skills and enhance their careers.

Access quality, affordable and relevant career development.

SIMPLE

- Ten-week development programs delivered through weekly online modules.
- Be guided each step of the way to make taking action easy.
- Knowledge delivered in bite-size modules to maximise learning, application and retention.

CONVENIENT

- Designed to fit into YOUR life.
- Learn **when** it suits you.
- Mobile compatible, so you can learn from **wherever** suits you
- Minimal time and cost investment for big returns
- Choose the career pathway that most suits your professional development.

EFFECTIVE

- Training that is designed specifically for public works professionals.
- Underpinned by science and delivered by industry experts.
- Focussed on outcomes rather than overloading on content.
- Practical tools, tactics and strategies to set you up for ongoing success.
