THE DALE CARNEGIE COURSE

Companies know that ever stronger business results are tied to the quality of “the human asset.” After all, it is people who increase customer satisfaction, expand market share, and build corporate value. Yet, how can organisations prepare employees to deliver peak performance?

The revolutionary Dale Carnegie Program teaches participants how to strengthen interpersonal relations, manage stress, and handle fast-changing workplace conditions. Moreover, people develop a take-charge attitude to initiate concepts and ideas with confidence and enthusiasm.

The training powers people to move beyond their comfort zone as they reach for—and attain—break-through goals. This provides a foundation for life-long performance improvement.

Does the training make a difference? You will see it in business results as employees stretch their abilities, tackle

complex challenges, and excel as consensus builders. Even better, you will see it on the bottom line.

Learning Outcomes
